# ***BUILT TO OUTLAST***

## **Our Wheelbarrows are Built to Outlast, and Our Warranty Proves It.**

Our wheelbarrow will be the last you'll ever buy, and one you'll pass on — generation after generation.

We are confident in the quality and craftsmanship of each of our products, offering a five-year warranty on our Scenic Lane series, and a ten-year warranty on our Scenic Road series.

## **Quality and Craftsmanship**

Every wheelbarrow is constructed from the highest quality materials: heavy-duty and extra-thick, high-density polyethylene trays with UV stabilizers; North American red oak handles; powder-coated steel undercarriages; and ball bearing wheel assemblies with grease fittings. Tested to 400 and 800 lb. load capacities — and American made.

**AMERICAN MADE**

***Yes, there really is a Scenic Road.***

It all started in 1977 in a small barn out on Scenic Road in beautiful Lancaster County, PA. The barn was on a farm owned by Mr. Lapp, a man whose family had been working the land in the Amish way for generations.

Needless to say, Mr. Lapp knew a thing or two about farming, and about creating products that would make the job more efficient. A two-wheeled wheelbarrow that remains the industry standard today—for ease of use, stability, and longevity—was the first of its kind. This was brought to market in 1982.

Mr. Lapp made innovative changes like this, as he used his own experience as inspiration.

In 2003, Mr. Lapp chose to return to his first love: *farming*. He sold ***Scenic Road Manufacturing*** to David Esh, a long-time employee, who continues to run the company today.

In keeping with its roots, ***Scenic Road Manufacturing*** remains a privately-owned Amish business, always true to its strong values when it comes to family and faith.

***Our customers are always welcome to visit.***
